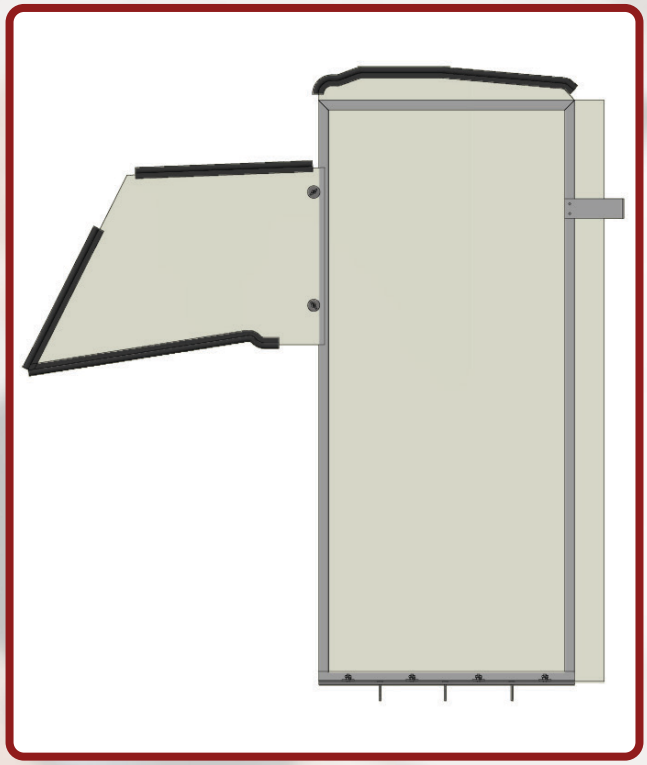
BODYGUARD DAY CAB DIVIDER



INSTALLATION:

1. Install L-Bracket on the hook on the back of the cab
2. Position the divider with the mounting plate installed on the bottom of the frame
3. Mark the outline of the plate, remove the Divider, and anchor the mounting plate on the floor using the outline
4. Install the frame on the anchored mounting plate.
   Drill and install self tapping screws into the frame and through the L-Bracket
5. Position and install the Lexan to fit the windshield
6. Prepare the dash for Velcro application by applying a degreaser. Remove backing and apply a 15" long loop section of Velcro down the 1" square tube so that the vinyl piece meets the top of the dash
7. Stick the 2" Velcro loop pieces onto their respective hook co-parts that are sown into the vinyl piece
8. Stick the vinyl piece onto the aluminum frame using the previously installed 15" loop side
9. One at a time, remove the backing from the sticky side of the loop Velcro, apply to the dash and repeat for the rest working your way down from the top
