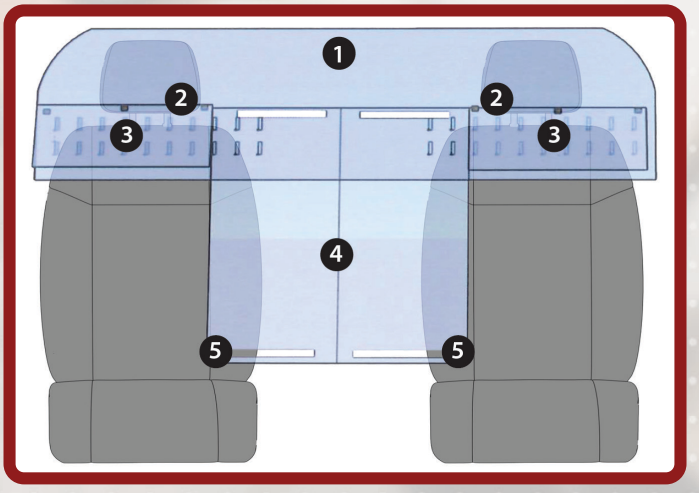
BODYGUARD® COMPOSITES

THE BODYGUARD QUICK SHIELD (by Action Car and Truck Accessories)

Bodyguard Composites has responded to inquiries from industry for a solution that can provide a shield between the driver and cargo or other occupants in the back of the vehicle.

- One size fits most makes and models
- Easy installation
- Easy to sterilize lexan
- Easy to remove when not in use
- Available in two sizes: 54x16" and 48x12"



INSTALLATION:

1. Place Lexan sheet behind the headrests of the driver and passenger seats.
2. Use Velcro straps and affix them through the slots of the Lexan and the headrest supports to provide a snug, tight fit of the product.
3. Install curtains to provide an additional protection barrier for areas that the Lexan sheet does not cover.
4. Attach longest curtains for further safety, as these will cover the area between the driver and passenger seats.
5. Attach Velcro to the bottom of the curtain.
